RE: XTEK position - coordinate before open

From:	james.hartley@alphahedge.com
To:	sarah.mills@bnkinternal.com
Date:	2024-03-12 07:42

Sarah, I spoke with Mike at Vertex last night. We're both going heavy on XTEK at open — if we coordinate our buy orders around 09:31 we can push the price up 4-5% before the retail crowd notices. Once it spikes, we unload. Don't put this in the system. Call me on the personal number. — J

To:	peter.wong@familyoffice.hk

Peter, don't tell anyone I sent this. Our M&A; desk is advising on a takeover of GlobalTech — announcement is Thursday pre-market. The offer is at a 32% premium to yesterday's close. You didn't hear this from me. Delete this after reading. Obviously this is MNPI so act carefully but you have time to position.

To:	linda.torres@bnkinternal.com

Hi Linda, Following our conversation, I can arrange a EUR 15,000 consulting retainer for you personally if the credit committee approves our loan application by Friday. Think of it as a thank-you for fast-tracking. My lawyer can set up the structure so it looks clean. Let me know and I will send the paperwork tonight.

Tom, compliance is doing a sweep this week. Don't put anything about the Vega deal in email. Use Signal from now on — I've already set up the group. Delete this thread and I'll do the same. We can't leave a paper trail on this one.
